

LED-Ready T8 Tube Light Fixture - Strip Fixture w/ Reflector

PN 4502

The LED-ready T8 fixture is pre-configured to operate with T8 LED tube lights, and does not require any re-wiring work prior to LED lamp installation.

Unlike traditional fluorescent T8 fixtures, this LED-ready T8 fixture does not contain a fluorescent ballast, so you can be assured that all of Waveform Lighting's T8 LED lamps are fully compatible.

This strip fixture includes a high-brightness reflector that directs light downwards, maximizing the useful lumens emitted by the LED lamps.

This product is perfect for new builds and renovations where an LED-first approach using a traditional T8 / 4-ft form factor is preferred.

PRODUCT FEATURES

- Ceiling-mount T8 fixture for 4-ft T8 LED tube lights
- Included reflector directs light downward and maximizes brightness
- Houses 2 lamps per fixture; lamps sold separately
- LED-ready configuration allows for direct installation of compatible LED tube lights without rewiring
- Works with all Waveform Lighting T8 LED tube lights and guarantees flicker-free operation
- No ballast included - not for use with fluorescent lamps
- ETL Listed, Made in the USA

ELECTRICAL SPECIFICATIONS

Input type:	Hard-wired, WAGO connector
Lampholder wiring:	Single-ended, non-shunted
Input voltage:	AC 120/277 volts, 50/60 Hz
Input current:	0.45/0.19 amps
Max power:	54 watts

- This product does not contain a fluorescent ballast. Do not attempt to use fluorescent lamps in this fixture.
- Use only with 4-ft LED T8 lamps which allow for single-ended, direct-wire power input.
- Suitable for use in damp locations.
